OWNER OF ORIGINAL TONOPAH MINE HERE

James Keith Drops Into Salt Lake From Big Gold Camp.

TALKS OF TONOPAH AND OF ITS GROWTH

City Is Putting in Sewers and a Very Fine Water Plant.

Superintendent James Keith of the original Tonopah and Jim Butler mines in Tonopah, is a guest at the Knutsford and is enthusiastic on the growth and outlook for that thriving community. Speaking along this line he said:

Has Big Pay Re I.

"Our mines alone employ 3:0 men, and we have a monthly pay-roll of \$50,000. When you take into consideration that there are other mines there, you can see that we have a great wage-earning town. There is a great deal of nonsense told about the town of Tonopah. Please say, it is not a wild and woolly town at all. Of course, we are not incorporated, but we have fully 4500 people there, and fully one-half of them are wage-earners. That means homes, and when men make homes they usually are law-abiding, and force others to be 50.

Putting in Improvements.

We are putting in sewers and a fine water plant, and an electric light plant will soon follow. We have four fine churches and a most excellent school system. The health of Tonopah is most excellent. Our banking system is all that could be desired, having three good banks, and several very large general stores. good banks, and several very large general stores.

Of course, Tonopah is a union town in the fullest sense, and all men get the best of wages. We are depending on the county of-ficers for peace protection and the Shariff and his deputies are fully equal to the demand.

Population Increasing. "Tonopah will, in the near future, be a new of \$500 to 10,000 inhabitants and the fining interests there are practically inexaustible. I was in Leadville in "77 and when went back there in "81 could hardly better the changes I saw. It will be just so in one ab.

We have all the men there we need and I would not advise gangs of men to flock there.

Good men get employment earlis. In all my
rears of mining experience I bever saw such a
promising field as is in Tonopah. We have
laily connection with Reno, and local papers
to care for our requirements.

Represents New School.

Mr. Keith represents the newer order mining superintendents being the product the higher modern schools, and speaks fro a conservative viewpoint. His phenomenal su coas in this field entitles his statements respectful consideration.

STATE IS LIABLE

Attorney-General Gives Opinion on Bounty for Grasshoppers.

Attorney-General Breeden has rendered an pinion to State Auditor Edwards, regarding he liability of the State in the matter of ounty for the destruction of grasshoppers and crickets. The opinion, which holds that the State is liable for two-thirds of the amount,

Question and Answer.

I have before me your communication of the lith has, in which you subuilt the following question for my official opinion, to wit: "Under the provisions of Chapter 11, laws of Utah, 1931, is the State liable for two-thirds the salary and expenses of receiving agents, whom the County Commissioners may appoint in their respective counties?"
This chapter relates to the destruction of grasshoppers, locusts and crickets, and authorizes a bounty to be paid for their destruction.

Authority of Boards.

Authority of Boards.

The Boards of County Commissioners of the respective counties of the State are empowered to provide by ordinance for the payment of such bounty, not to exceed one cent perpound, as may be thus provided by such county boards. They are also empowered to appoint a receiving agent in each town or precinct in their respective counties to carry out the provisions of this chapter. These receiving agents are required to keep on file an itemized statement slowing the quantity of said insects received and destroyed in the respective districts with the amount of bounty to be paid therefor, and transmit a foll report of the record to the County Clerk semi-monthly, and when the amount of bounty reaches the sum of \$50 or over, the clerk shall present a bill for the same to the State Auditor, who shall draw his warrant for two-thirds of the amount of the bill so presented by said clerk. This chapter also provided that the State shall pay two-thirds of all amounts paid out under the provisions of this chapter.

Purpose of Legislation.

The purpose of the legislation was to pro-tect the agricultural interests of the State by alding and encouraging the destruction of hese yests and destructive insects and in order to accomplish this purpose the Legisla-ture empowered the Board of County Com-nissioners of each county in the State to en-sect ordinances and appoint receiving agents to more effectually carry out the objects in-lended.

Agents of the State.

Agents of the State.

These receiving agents by authority of this act, are made agents of the State and the State is liable for two-thirds of the salaries of the said receiving agents it being an amount paid out under the provisions of this act. There being no specified amount fixed by this statute for the receiving agents to receive, such agents would be entitled to a reasonable compensation for their services, to be fixed by the Board of County Commissioners, and you are advised that the State is liable for two-thirds of the amount of such compensation.
